CASE STUDY:
EARLY LEARNING & CHILDCARE CENTRES

Active Kids Early Learning: Revolutionizing Childcare Connectivity

UX COMMUNICATIONS

OBJECTIVES

Active Kids ELC, a network of childcare centres, is dedicated to nurturing children's development in a safe and conducive environment. Their commitment to providing quality care to children is reliant on seamless communication to foster trust with parents. UX Communications stepped in to provide bespoke, flexible solutions that would address their specific needs and enhance overall connectivity.

SOLUTIONS

When Active Kids ELC turned to us, we recognized the critical nature of their predicament. Restoring faith in the dependability of their communication infrastructure was our primary objective, which we aimed to achieve swiftly.

Our solutions ranged from installing comprehensive wireless network coverage to introducing robust communication tools, thereby setting the foundation for Active Kids to open two new state-of-the-art centres with confidence.

BENEFITS

A responsive partner

At UX Communications, we pride ourselves on doing what we say we will do, when we say we will do it, meaning you are always aware of what is happening

Parental Trust

Quick, reliable emergency communication capabilities in every room, ensuring the safety of children and staff.

Compliance and Assurance

Full compliance with ACECQA standards, providing peace of mind to parents and staff regarding the safety and regulatory adherence of the center.

AT A GLANCE

Challenges

- Inconsistent internet connectivity affecting staff communication and children's engagement
- Lack of emergency functionality and compliance with ACECQA standards
- Struggle with expanding operations

Benefits

- Seamless wireless network connectivity
- Stable, reliable communications
- Greater parental trust and satisfaction
- Enhance operational effiency

The transition to the new communication system was incredibly smooth, thanks to the professional team. Our staff now enjoy reliable internet connectivity, and the emergency features have significantly boosted our safety protocols. We couldn't be happier with the results.
